Education + Environment

ABOUT S R DALVI (I) FOUNDATION

The S R Dalvi (I) Foundation, a not-for-profit organization, is established by Smt. Seeta Ramachandras Dalvi as a gratitude to two pillars of our society: education and the environment. With a vision for a sustainable and enlightened future, our foundation focuses on empowering teachers and fostering environmental consciousness among learners.

OUR VISION

The vision of the S.R. Dalvi (I) foundation is to transform education into a powerful tool for environmental awareness and action. We aspire to empower teachers with the knowledge, tools, and resources to cultivate environmentally conscious citizens, fostering a sustainable future where the environment is protected and cherished through education.

OUR MISSION

The mission of the S R Dalvi Foundation revolves around empowering teachers and championing environmental conservation. By investing in the development of teachers and advocating for sustainable practices, the foundation is actively working towards creating a better future. Joining hands with the S R Dalvi Foundation means contributing to positive change and making a lasting impact on society and the environment.

OUR STORY

As the world struggles with challenges posed by pandemic, a philanthropic couple is wondering how they can help and ease the pain of others. "Where to start from?" was the question. Smt. Seeta Dalvi have been teacher in a secondary school for fifteen years and has seen the life of teacher very closely. The answer came from there. During lockdown, many teachers went out of the way to ensure the continuity of student's education. The challenges faced by teachers were not less. Overnight transition from classroom teaching to digital class was itself a challenge. Lack of laptops or high-end smart phones and Network issues were other challenges. And yet many teachers did what they do best. Keep the education flowing!

As the country started limping back to normalcy, doctors and front-line workers were showered with praises and recognition. This triggered the thought that why not teachers who also got out of their comfort zone and braved themselves to continue teaching the students ensuring they do not lose a year to lockdown.

The writing was on the wall. The Dalvis formed an organization, S R Dalvi (I) Foundation, a not-for-profit organisation to bring recognition and respect to teacher's community. The Dalvis are acutely aware of the fact that the teaching industry does not get the same attention that other professions get. They decide to do something about the problem through their foundation. What started as a simple idea slowly began to take a meaningful shape.

Today, S R Dalvi (I) Foundation is working on two well defined agenda.

Through its various initiatives, the foundation has started building a community of passionate teachers, and equipping them with necessary tools and means that will enable them to cultivate a generation of highly motivated knowledge seekers and talented students. The ongoing programs include extended opportunities that offer continuous professional development of teachers in sync with the rapid transition to digitization.

In short span of two years, the foundation has reached out to more than fifty thousand teachers, has developed app for teachers and conducted various upskilling programs.

The founders of the foundation, Smt. Seeta Dalvi and Shri Ramchandraa Dalvi, strongly believes that education is the best and sustainable route to change India. And teachers are the best change-angels who can influence, motivate and encourage the future generation.

ABOUT THE FOUNDER

Seeta Dalvi has graduated in Arts and holds Diploma in Education. She has spent 12 years of her career as teacher in secondary school before joining her husband's business. Being an hands-on entrepreneur, she ensured the growth of their HR business manifold, acquiring many corporate clients and government projects. Though giving full attention to the flourishing business, her heart remained in education sector. Covid was a turning point when she could spend some time setting up new goals for herself. Believing that Teachers are Nation builders, she decided to establish a NGO with objective of empowering teachers who in turn empower our next generation. In less than 2 years, her NGO has touch based over 60,000 teachers in Maharashtra, conducted over 100 programs for them including Digital Literacy Course with certification from Nehru Science Center, Ministry of Culture, Govt of India.

MRS. SEETA DALVI

MR. RAMACHANDRAA DALVI

Teaching is one of the most important professions in the world. Teachers are the unsung heroes of our society. They are the ones who shape the future of our children and our country. They are the ones who inspire and motivate our children to learn and grow. Teaching is a challenging profession and teachers deserve our gratitude and our admiration. That's what we aim to provide through our foundation
